Observaciones: (motivación, participación y puntos destacables del progreso)

Understanding of advanced grammar is developing well. Now self corrects while speaking.

Pronunciation is a work in progress although improvement is already noticeable. Confidence when speaking is improving all the time. Range of vocabulary has expanded which has resulted in greater verbal expression. Can speak with ease on a variety of topics and their vocabulary base is expanding all the time. There has been a noticeable improvement in listening comprehension skills.

Sugerencias: (objetivos a corto y medio plazo, puntos destacables a mejorar)

Expose yourself to English every day. The Internet has many resources to help you; articles, blogs, videos and podcasts. Keep a learning journal and document when you use English; films that have been watched, books that have been read, conversations and activities that have been completed. Pronunciation in general is good but it is important to work on correct pronunciation of past tense verbs that end in 'ed'.
